Subject: FOIA Request EPA-R6-2014-010361 (CITGO Lake Charles Refinery)
Date: Thursday, September 18, 2014 3:47:00 PM

Hi Thad,

It was a pleasure speaking with you this afternoon. I appreciate you allowing me to attempt to clarify your request and narrow its scope. In so doing, it is my understanding that, at least with respect to CITGO's Lake Charles refinery, you are interested in non enforcement-confidential documents that would also include the 2006 oil spill which has resulted in litigation that's been remanded to the lower district court. In that vein, you mentioned there is no need to produce any copies of pleadings filed in that litigation since you can obtain those online through the federal court web-based pacer system.

You also mentioned you would accept partial responses as EPA Region 6 goes through the process of searching and copying from various potential custodians and databases within our system.

Thanks for your willingness to narrow the scope of your request as noted above. However, if my understanding is incorrect, or you need to further clarify the above, please let me know. As always, please feel free to contact me if you have any questions.

Best regards,

Edwin Quinones
